Tablets

IDX

Phenylephrine: Nasal decongestant;
reduces nasal airway resistance¹

Dextromethorphan: Antitussive;
effective in suppressing cough by acting
directly on the cough center in brain &
decreasing nerve impulse discharges to
the muscles that produce cough²

Chlorpheniramine: Used alone or in
combination in the management of
nonspecific cough & causes mild sedation
to prevent sleep disturbance³

In Concomitant Asthma & Allergic Rhinitis

BL SET-M

MRP: 1800

PACKING: Tab 10*10 Alu Alu

COMPOSITION: Bilastine 20 Mg +
Montelukast Sodium Eq. to Montelukast 10 Mg

BL SET-M

Bilastine 20 mg + Montelukast 10 mg Tablets

Bilastine

- Bilastine belongs to a class of medication called 'anti-allergic' medication primarily used to treat allergic symptoms like sneezing, runny nose, congestion, stuffy nose or watery eyes.

Montelukast

- Montelukast belongs to the class of leukotriene receptor antagonists that block the action of chemicals called leukotrienes released from the lungs, causing inflammation (swelling) and increased mucus production in the airways. Thereby reduces inflammation, mucus production and narrowing in the airways. Bilastine belongs to the class of antihistamines (anti-allergic drugs) that works by blocking the action of histamine, a substance responsible for causing allergic reaction. It helps relieve allergic symptoms such as sneezing, running nose, watery eyes, itching, swelling, congestion, or stiffness.

Indications

- Perennial Allergic Rhinitis
- Allergic Asthmatic Conditions
- Seasonal Allergic Rhinitis

Extensive Relief In Asthma & Rhinitis....

Control Asthma

Drescap-M

MRP: 1500

PACKING: Tab. 10*10 Alu-Alu

Manage Urticaria with....

Afterax ²⁵/₁₀

Hydroxyzine Hydrochloride 25mg & 10 mg Tablets

Hydroxyzine Hydrochloride

Commonly used to treat pruritic skin lesions. Effective in controlling the symptoms of patients with chronic pruritus.

Have equal results compared to doxepin but greater than cetirizine in controlling the symptoms of patients with chronic pruritus

Is a first-generation antihistamine widely used in the pediatric population for a variety of conditions

Also Effective in managing intense pruritus of

Scabies, Atopic Dermatitis,
Allergic ContactDermatitis

Indications :

Pruritis | Urticaria

Allergic dermatitis

Contact dermatitis

Atopic dermatitis

Soothes and eases skin trouble

Get Control Over Running
Nose & High Fever

AFTERCOLD

MRP: 599

PACKING: Tab. 10*10 Blister

COMPOSITION: Levocetirizine Hydrochloride 5 Mg + Phenylephrine Hydrochloride 5 Mg + Paracetamol 325 Mg

Aftercold

Paracetamol 325 mg+ Phenylephrine 5mg+
Levocetirizine 5mg **TABLETS**

PARACETAMOL:

- Provides relief from fever in cold & flu
- Provides relief from pain and sore throat

PHENYLEPHRINE:

- Potent vasoconstriction, reduces severity & duration of nasal congestion
- Relieves nasal congestion to ease breathing

LEVOCETIRIZINE:

- Potent antihistamine and anti inflammatory agent
- Exhibits 2 fold high affinity for H1 receptors compared to Cetirizine

- **Common Cold & Cough**
- **Congestion Associated With Sinusitis**
- **Rhinitis Accompanied By Fever & Pain**

**Get Control over
