When Pain Becomes Agony

KT-NOW

MRP : 850

PACKING : Tab.10*15 Alu-Alu

**COMPOSITION : Ketorolac Tromethamine
10 Mg (Dispersible Tablets)**

When Pain becomes agony

KT-NOW

Ketorolac Tromethamine 10 mg **Dispersible Tablets**

The pain Specialist

- Ketorolac is an approved drug for the management of moderately to severe acute pain that requires analgesia at the opioid level
- Onset of action : 30 min, C-Max : 20-60 min, bioavailability: 80-100%
- No CNS side effect (Non Sedative, No Anti Anxiety effect)
- Ketorolac administrations immediately before peridontal surgery was effective for alleviating the operative painful sequelae
- In postoperative oral surgery pain Ketorolac 10 mg has superior analgesic effect than Acetaminophen & Ketorolac 20 mg was superior to Acetaminophen - Codeine combination
- Ketorolac is as safe as Ketoprofen & Diclofenac for the treatment of pain after major surgery

Indications : Moderate to Severe acute pain (≤ 5 days) that requires analgesia at opioid level
